## Q4 Overview (an agenda or other brief description) of the Adaptation/Variation

The Power of Peace workshop is a unique opportunity for youth to voice their fears and concerns in a supportive environment that will show them that they are neither alone nor victims of circumstance. Through a succession of experiential workshops, young people are encouraged to realize their full potential as productive members of society. The program, led by YVC's trained facilitators, is provided to adolescents over the course of two full school days. On average, 25 students participate in each two-day cycle of the workshop.
